Note from Internshala's CEO

> **May your reality surpass your dreams!**

Feeling underconfident about your job search, especially if it is your first job? Not getting interview calls? Not sure if you have the skills and the attitude that companies look for or feel nervous when facing an interview? Or is the fear of AI's impact on the jobs making you lose sleep? Or maybe you are stuck in a job that you hate and want to switch to a new field.

At Internshala, we understand this challenge intimately. With over a decade of experience in the hiring ecosystem, we've built **placement-focused courses** designed to truly prepare candidates for today's job market. Backed by a curriculum that is designed to meet every changing industry demand and technological landscape, these courses emphasize hands-on learning through **real-world projects** and come with **government-recognized certifications.**

But we don't stop at skill-building. Every learner gets access to **personalized mentorship**, support in crafting compelling resumes and portfolios, and an **exclusive job application channel** with **250+ hiring partners**. Thousands of our students have already received job offers, and the number grows every month.

At Internshala, our mission has always been **to help every student get the best start to their careers.** And with every success story, we move a step closer to that goal.

Learner Success Stories

From confused to confident: See where our learners are now

Taha Sayeed
Software Developer

SAMSUNG

The course was well-planned and easy to understand. The trainers explained everything clearly and helped me with my doubts. I learned a lot during the sessions, and the overall experience was very good. The content was practical and useful for real-world projects. I felt more confident in my skills as I progressed through the course.

Uday Kalyan
Senior Engineer

dish

This course helped me crack a ₹18.5 LPA job. It gave me a strong foundation in software development and made my transition from DevOps to backend development seamless. I discovered it online while searching for structured, practical training, and it truly delivered. The overall experience was solid, and I'm satisfied with what I gained.

Rahul
Software Developer

IDEA

I landed a job even after a 2-year gap in my education. Full Stack Development Placement Course with AI was well-structured, comprehensive, and flexible. The industry-level projects were good. Additionally, mock interviews & viva sessions were conducted to prepare for real-world interviews.

Madhav
Flutter Developer

LT | Lifespark Technologies

I was a web developer before joining the Internshala's Full-stack Development course. I joined the course to sharpen my skills. The industry projects, live sessions, and doubt-clearing support were really helpful. I worked on an e-commerce app and stayed on track with deadlines.

Learner Success Stories

From confused to confident: See where our learners are now

Pratham
Front-end Developer

I knew the basics but the course solidified my knowledge, especially in back-end development. The teachers were helpful & answered all our doubts. The placement team helped me with the problems I was facing in getting placed & I soon got a work-from-home placement.

Gaurav
Full Stack Developer

It gave me the necessary skills & boosted my confidence. I particularly enjoyed the masterclasses & projects which helped me build a strong portfolio. The mentors refined my resume, provided constructive feedback for job applications, and offered invaluable guidance during interview preparation.

Varis
Associate Web Developer

The best part of the course was the doubt-clearing sessions which helped me resolve all my queries on time. The projects are too good & the work I did on them helped me crack interviews. I have gotten 2 internships & have been selected for companies during on-campus placements too.

Gagan Ganapathy
Software Developer Intern

The course had quick doubt resolution and helpful assignments. I enjoyed building an e-commerce website, which improved my skills. The placement support was great, with job updates and interview prep. Thanks to this, I easily cracked my interviews and am now a Software Developer Intern at Marmeto, learning about Shopify.
